CONCORD, N. C.

PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but will be called simply a dead one or a has-been. In business circles the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

EFFICIENCY

which fact is being more vividly demonstrated every day; for there are thousands of City Directories in use now, where there were to be found comparatively very few only a short period ago.

The business world has awakened to the realization of this need; and there are few towns of any consequence that do not support and have a City Directory. Just how up-to-date or complete the Directory is, depends in most cases upon the support accorded to the publishers, provided, of course, that they know their business.

It is an old saying that you can judge a man by the clothes he wears —whether this be true or not matters little; we all know that it is generally done; often no doubt to the disadvantage of some one. Just as much as man is judged by his clothes, just so much is the business life and activities of a town or community judged by its Directory; because the Directory is the most complete and the only recognized standard book of reference regarding the citizens of a community, their address, occupation or kind of business in which they are engaged. When you consult a Directory of a town, you can easily determine if it is up to the standard, and if you find it to be well patronized, you need not be told that it belongs to a live community, the fact is self-evident.

It is therefore with pleasure that we present the City Directory of Concord, N. C., for 1920-1921, for the fact is self-evident, we are doing business in a live community.

Advertising

is what nothing was ever sold without. If a loaf of bread is sold to a tramp who managed to glom onto a jitney, it had been advertised by the tramp's hunger and by somebody who told the bo where the bakery was. Or by the window of the bakery itself. There isn't a human being who doesn't believe in advertising. If he really doesn't, he had better commit suicide. And that will give him a lot of publicity that nobody can cash in on.

The man who claims not to believe in advertising is a—well, you know what Ananias was. This boob is too anxious for everybody to tell other people that his place is a good one to trade. But ain't willing to give the advertiser anything for telling the other folks. He is, to use a modern term, a something-for-nothing tightwad. The man who puts on good clothes advertises his own respectability, and expects results in the shape of the respect of others. The man who dresses poorly because of necessity or purposely, advertises his poverty and expects results in other people's help or contempt. The doctor claims it is unethical to advertise, but he wants the newspapers to mention every time he has a case. The same is true of the lawyer. In fact, every honest person wants the right kind of advertising. Only dishonest persons are afraid of it, and they get it anyway.

TO GET GOOD ADVERTISING, TALK IT OVER WITH THE DIRECTORY MAN NEXT TIME HE IS IN YOUR TOWN.

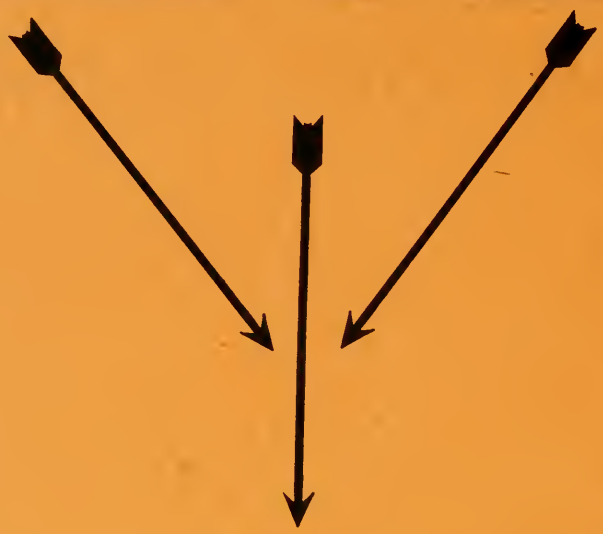
BLACK LETTERS



Those names appearing in black letters in this Directory represent the energy and push of the city, and it is a pleasure for the publishers of this Directory to have the opportunity to make the public acquainted with them through our pages. Those in black letters are the people who accomplish the wonders in business here and make the city what it is. They recognize and support all the public necessities and things needful to improve and serve a city of Concord's magnitude. They are not the drones and sponges who never support anything and thereby gain by others' hard work and money. When you patronize those in black letters you patronize men and firms who will patronize you in the same broad manner in which you patronize them.

YOU

Can say it in a good many ways, including "With Flowers," however, when YOU SAY it in a City Directory "Ad" you say it RIGHT.

The City Directory

Reaches the people you want to reach and brings results. We call your attention to the many who repeat their "ads" from year to year.

Local Advertising

There is no advertising medium that reaches the prospective buyer in the same way, time, or place, as does the City Directory. It brings results. Try it.

Out-of-Town Advertising

The City Directory carries your message to a good many places, some far distant. We have numerous libraries throughout the country in which we keep up-to-date directories of all leading cities. It gives you PRESTIGE in a class above the average, when you place your "ad" with us.
